Project Manager Software

A Secure "Window" To Your Projects Inside the Bureau Veritas Test Lab

Sample screen from Bureau Veritas Project Manager Software

BUSINESS CHALLENGE

Clients using an independent laboratory to test and certify their electronic products are often left unaware of their project's status. Whether they are testing for Electromagnetic Compatibility (EMC), performance, benchmarking, environmental stress or safety, clients realize a benefit from a secure online solution to view their project's status in real-time, whenever and wherever they wish.

SOLUTION

Project Manager is a proprietary, innovative online project tracking system available only to customers of Bureau Veritas in the Americas. Clients maintain password-protected, secure access to their project status at virtually any moment. Built on Microsoft's .NET visual C# secure technology, the Program Manager web-based implementation provides stable, secure and rapid access to any authorized client with a compatible web browser and internet connection.

What are the key benefits?

- Flexibility – Project status can be monitored by individual tests and test shifts
- Daily Updates – All notes, product modifications, and results are updated daily as required by Bureau Veritas internal quality system
- Convenience – Clients can immediately share critical project information with management
- Speed – Enables clients to quickly identify issues, preventing unnecessary delays in test schedule

WHY CHOOSE BUREAU VERITAS?

Reputation – Founded in 1828, Bureau Veritas is a leading global quality assurance provider with more than 33,000 employees operating out of 850 offices and laboratories in over 140 countries.

Worldwide Locations – With dedicated and experienced test and approvals engineers and inspectors in every major sourcing area worldwide, Bureau Veritas offers you the convenience of global coverage with local service where you need it.

Technical Knowledge & Leadership – Bureau Veritas knows that getting your product through the certification process on time and within budget is a critical part of your product launch goals. With knowledgeable approvals engineers in the U.S., Asia and Europe, and safety inspectors worldwide, we can partner with you to help achieve your product release goals.

Personalized Service – Bureau Veritas recognizes the value that certification can bring. As such, we offer customized and specialized services to meet your safety compliance needs throughout your supply chain. If asked to intervene at an early stage, we can offer suggestions to enhance the product's approval success without sacrificing innovation or creativity.

OUR APPROACH

The Bureau Veritas Project Manager system saves resources, because there is no need to download and store reports on a client's computer system. Rather, the reports are available to view at any time on the Bureau Veritas secure server. This represents a comprehensive solution since test reports dating back to 2004 are archived on the system thus allowing clients to login and download old or new reports at any time.

At Bureau Veritas, we can also help you meet the challenges of global product certification and testing for your products. Curtis-Straus, located in Littleton, Massachusetts, is an accredited NRTL (Nationally Recognized Test Laboratory), recognized by OSHA (Occupational Safety & Health Administration) in the U.S. and SCC in Canada (Standards Council of Canada). Bureau Veritas' Certification Body Test Laboratories (CBTLs) are global and can provide access to key industry marks.

FAQs

How Can I Request Access to Bureau Veritas *Project Manager*?

To request access, click link below or copy and paste into your web browser. Your validated request will be authorized typically within one business day.
http://pm.curtis-straus.com/pminfo/accountrequest.aspx

What does the *Project Manager* log-in screen look like?

View the log-in screen at this link:
http://pm.curtis-straus.com/pm/login.aspx?ReturnUrl=%2fpm%2fdefault.aspx

Can I view a *Project Manager* Demo?

Yes. Contact Bureau Veritas to arrange a demonstration
Tel. +1.978.486.8880 or e-mail ElectricalMail@BureauVeritas.com

Is *Project Manager* a secure solution?

Only clients who have requested access and are validated by their Bureau Veritas Program Manager may have access to Project Manager. The client's primary contact may view all projects. If full access is not granted or desired, only a single project may be viewed by an authorized user.
